

Using Captivate

We provide a solid introduction to Captivate® and continue with a detailed instruction on using Captivate for your computer simulation or online learning projects.

Introduction to Adobe® Captivate

In this class, you will learn how to:

- Plan a successful project
- Navigate the Captivate interface
- Record a project
- Insert and format captions
- Work with a timeline
- Insert and manage images
- Use pointers, buttons, and highlights
- Convert demonstrations into simulations

This class is intended for those who are experienced with word processing and technical communication or instructional design but are new to Captivate.

Intermediate Adobe Captivate

In this class, you will learn how to:

- Work with audio
- Add animation and Flash® video
- Apply skins to your project
- Create project templates
- Publish your projects and export pieces of the project
- Develop quizzes
- Work with Learning Management Systems

This class is intended for those who already have a basic understanding of Captivate and are familiar with computer-based simulations or online learning development.

Registration

See www.radcomservices.com or call 330-650-4777 for more information and to register.
